PAT_Unique Services and Concepts

- 1) Tool Repairs & Service
- 2) Tool Testing & Calibration
- 3) Tool Leasing & Hire
- 4) Refurbished Equipment
- 5) Reaction Bars & Engineered Solutions
- 6) On Site Assessment
- 7) Project Management
- 8) Product Testing Services
- 9) Tool Audit & Management Services
- 10) Theory & Product Training

General Servicing, repairs, strip and quote, preventative maintenance and on-site support. All service work and repairs are performed in house / onsite by our qualified service technicians on :

- Cost per component (CPC) basis.
- Annual Maintenance Contract (AMC) basis.
- At actual basis.

Are your tools accurate? Are they set to the correct torque? Do they meet the manufacturers specification? Have them tested in our workshop using NABL(National Accreditation Board for Testing and Calibration Laboratories) certified equipment. Test and calibration certificates are provided upon completion.

To ensure we meet the needs of all of our customers, we also offer options for air tool leasing, battery tool leasing, electric tool leasing, trade-in and exchange of available equipment. If you have a temporary requirement we have an extensive rental tool fleet to help you get the job done.

Refurbished Equipment

We can offer used, refurbished, and ex-demo equipment where available. All items are tested and guaranteed.

Nothing off the shelf? A complicated job - torque reaction issues or other special considerations? Perhaps we can realise a cost effective solution for you.

A closer look at your facility will enable us to identify potential tool and process improvements that may benefit your bottom line

**Reduce
Costs**

**Minimize
Failure**

**Maximize
Potential**

**Increase
Reliability**

**Achieve
KPIs**

Large or small we can effectively manage all aspects of the project from concept to final acceptance and beyond; you have our support.

We are able to provide hardware and bolt testing services in house, to support your prototype build or product development requirements.

Are you utilizing all of your capital equipment resources? We can assess your tool inventory and make recommendations to optimise its use.

We perform training for many stakeholders within customer organisations. Our training is tailored to suit your requirements.
